

The Logic Systems Ethos Nd215i is a compact, high power, bass enclosure. It features two band pass loaded long throw, neodymium 15” bass drivers. The benefit of this configuration is the increase in band sensitivity over a conventional direct radiating construction, combined with a tight, punchy and controlled bass sound.

The Ethos Nd215i is designed to be used as the bass element of an installed Ethos CA speaker system. Although it can also be combined with cabinets from the IS and ML series within fixed installations. The cabinet does not have the integrated fly ware of the touring version of this cabinet and as such is only suitable for ground stacking. Presets are available within the DP series system controllers for the correct processing of the cabinet in combination with other Logic Systems enclosures.

<b>Frequency Response:</b>	• 40Hz – 150Hz
<b>Components:</b>	• Bass: 2 x 15” cone drivers • HF: N/A
<b>Power Handling:</b>	• 2000w
<b>Sensitivity (1):</b>	• 102dB
<b>Directivity:</b>	• Omni-directional
<b>Impedance:</b>	• 4 Ohm
<b>Construction:</b>	• 18mm Birch plywood
<b>Finish:</b>	• Water based textured black paint
<b>Connections:</b>	• 2 x Neutrik NL4 connectors • 1+/1-: bass input • 2+/2-: linked
<b>Dimensions:</b>	• 505mm (W) x 780mm (H) x 600mm (D)
<b>Packaged Dimensions:</b>	• 635mm (W) x 930mm (H) x 730mm (D)
<b>Weight:</b>	• 57Kg
