

The Logic Systems Origin series is designed to cater for the demands of the professional working musician. The Logic Systems Origin B215 is a compact, bass enclosure. It features two direct radiating 15" bass drivers combined in a push/pull configuration. The benefit of this configuration is a tight, punchy and controlled bass sound. The Origin B215 is designed to be used as part of an integrated system with the Origin 1296Nd and Origin SB118 Mid/top and sub/bass enclosures, forming a compact and versatile FOH system. The Logic Systems DP2140 system controller contains presets for the bi-amp operation of the Origin system.
