

Key points about the flightcase are:

- Constructed from hard-wearing 9mm plastic flightcase board
- Designed to hold 2 off ML12/14 speakers along with 2 truss yokes
- 4 off heavy duty butterfly latches secure the lid
- 4 off heavy duty Guitel castors for easy maneuverability
- 10 off heavy duty handles allow easy carrying/lifting options
- Fully lined with 12mm ether foam for protecting the speakers
- Profile foam in the lid holds the speakers tight in place during transit
